

Follow the Clues “Anytime Course”

This series is for players with a few years’ experience looking for a competitive edge and a chance to succeed in tough situations.

Bridge players often have to be Sherlock Holmes to deduce the winning line of play. These six lessons will be tons of fun as you practice how to count, use logic, and follow the clues to bridge success! No partner is required, you will always be in the "decision seat" for the practice deals.

This set of lessons is based on a six-week course (six 2-hour lessons), but you can take it at your own pace. The content will be available for at least one year (through September 30, 2023). You can view it as many times as you wish and play the practice hands over and over.

Here are the topics covered in Follow the Clues:

1. Follow the Clues by Counting the Points
2. Follow the Clues from Their Opening Lead
3. Clues from the Bidding
4. Clues from the Cards Your Partner Plays (Defense)
5. Clues from the Rule of 11 (Defense)
6. Rule of 11 and Clues from the Opening Lead (Declarer)

This course was taught live online in Summer 2022, and some of the reviews said:

“Thanks for another wonderful set of lessons Kim....thoroughly enjoyed the experience.”

“These lessons improved my game and better yet, my enjoyment of the game.”

“The class was fabulous! I enrolled with trepidation; I leave with knowledge.”

The one-time fee for “Follow the Clues” is \$89. Registration and payment are available [here](#). For a free sample course, try “Find the Queen” on the same website, which you will see when you sign in or register for a free user name and password (click on “All Courses”).
